

TOP SECRET
IDEALIST

MEMORANDUM FOR: Deputy Director for Science and Technology

SUBJECT: IDEALIST/TACKLE Mission C168C

25X1C 1. IDEALIST/TACKLE mission C168C was flown on 20 October 1968 with the "H" camera. This route was designed to remain 20 nautical miles off shore and obtain photo coverage of China coastal targets from 2300N 11600E north to the Hang Chow Wan Bay which is just south of the Shanghai area.

25X1C

[REDACTED]
[REDACTED] This was the seventh IDEALIST operational mission for calendar year 1968, and was flown only 24 hours after mission C158C (19 October).

25X1C

3. The weather in the target area was forecast to be Category I (0 to 1/8 cloud cover) over the China mainland and coast line. The pilot reported the weather was clear for all flight lines except the last flight line which was Category III. ChiCom tracking revealed possible drift to the left of course. Our [REDACTED] command post directed a correction of 15 degrees right to maintain the desired course.

25X1A

25X1A

4. No systems activities were reported by the [REDACTED] and this was confirmed at the debriefing as the pilot received no display in the cockpit. This was one of the quietest [REDACTED] reporting missions observed in some time.

5. Twice during the mission the pilot reported seeing MIG contrails to the left and below his altitude. These contrail sightings occurred in the vicinity of Lung-Tien Airfield and Nan Jih-Tao. The MIG aircraft never climbed above contrail altitude ([REDACTED] feet), therefore, in all probability, these interceptors were MIG-19s.

25X1A

25X1A

6. Information received 21 October, indicates that mission pilot probably incorrectly set in the sighting angle; i.e., 07 degrees was set instead of 70 degrees. The only targets obtained were Hai Tan and Tai-Shan Islands. Minor malfunctions were indicated with the System 21. Remaining systems and equipment operated satisfactorily.

IDEALIST MISSION C168C, 20 Oct. 1968

Overall interpretability of Mission C168C was good with 20 % cloud cover. Mission provides coverage of China coastal area from approximately 2530N 11930E to 2600N 11920E, and from approximately 2700N 12030E to 2730N 12100E. No SSM activity noted.

CHINA TARGETS COVERED:

- 0 of 39 programmed targets covered
- 3 bonus COMIREX targets covered
- 31 bonus non-COMIREX targets covered

34 Total targets covered

BREAKDOWN OF TARGETS BY CATEGORY:

- 4 Transient targets (freighters)
- 10 Coastal Defense Sites
- 9 AAA Sites
- 5 Army Barracks
- 3 Naval Bases
- 2 Radar Sites
- 1 Port Facility

34 TOTAL
